

Curriculum Implementation and Evaluation

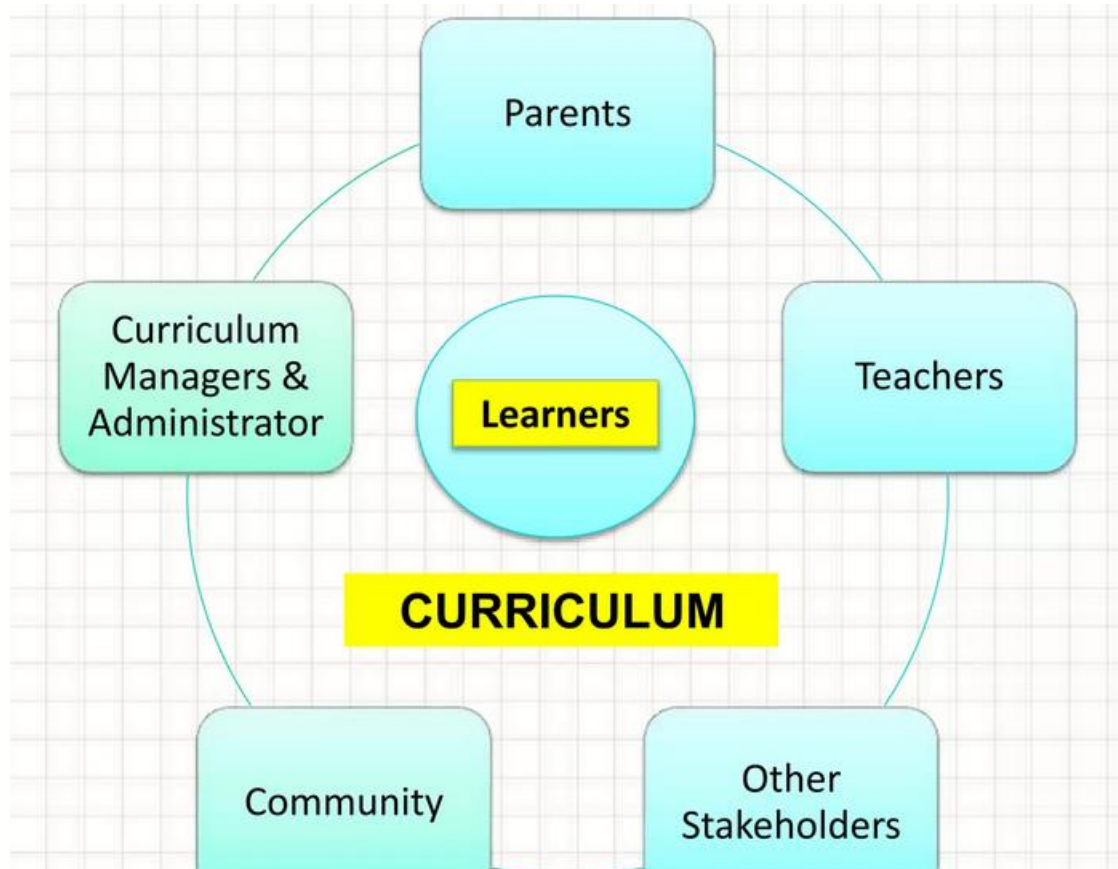

Abdirahman
Sheikhdon

Curriculum Implementation

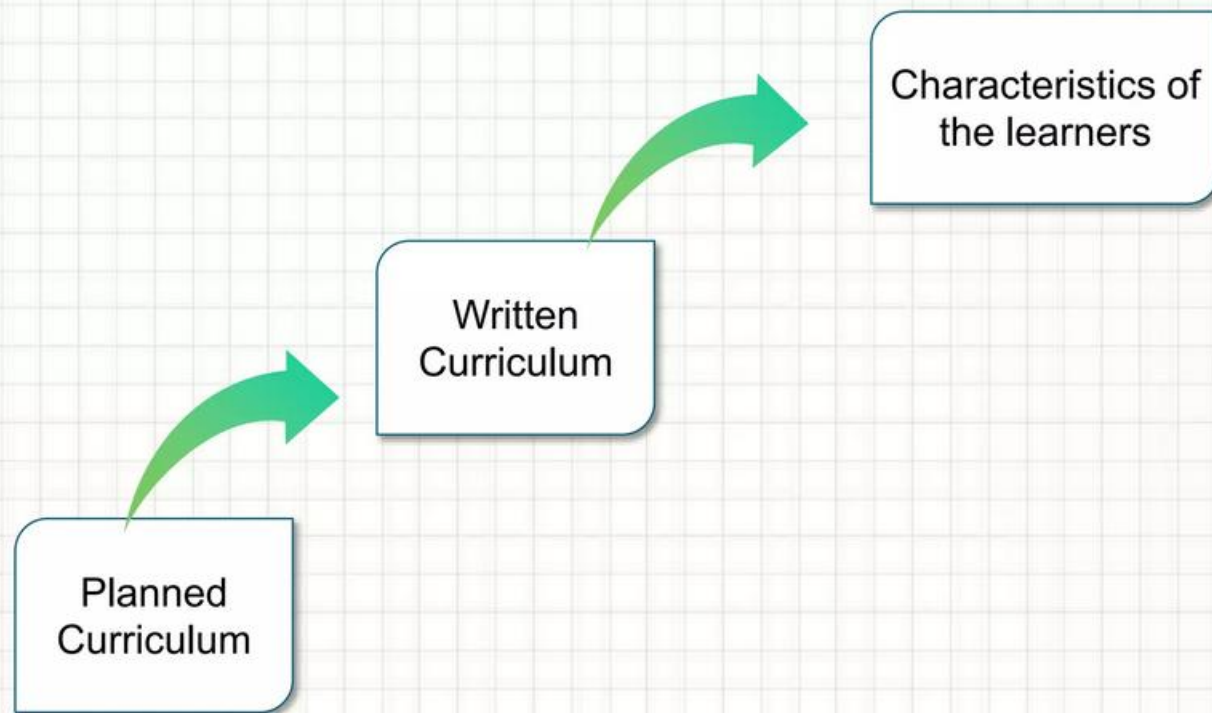

- It entails putting into practice the officially prescribed courses of study syllabus and subjects.

Stakeholder

➤ *“ I consider the learner as the center of the educational process. Everything in the curriculum should revolve around his/her interests, needs, abilities, and capacities.”- Hene*

Success in Education

Teacher as curriculum developer and implementer

- Planning and writing the curriculum are the primary roles of the teacher.
- The person who directly implements the curriculum, in whose hands, direction and guidance are provided for successful implementation.
- Prepares and implements the day to day activities in school.

3. Curriculum Managers and Administrators

Functions of the school principal as a curriculum manager:

- supervise curriculum implementation,
- select and recruit new teachers,
- admit students,
- procure equipment and materials needed for effective learning.
- plan for the improvement of school facilities and physical plants.

Role of the Administrators
